Man: Blue Bay Hotel, how can I help you?

Woman: Hello. I'd like to know if you have any free rooms for this weekend?

Man: Sure, we do. How many rooms do you need?

Woman: Well, one double room for me and my husband and one twin room for my two sons.

Man: Let me check... oh, it seems you're very lucky. We have such rooms and they're on the same floor.

Woman: Do they have bathrooms?

Man: Yes, both of them do. And breakfast is included in the price, too.

Woman: That's great because I've heard that the hotel restaurant serves delicious breakfast.

Man: That's true. Anyway, If I were you, I'd book the rooms now. There's a moto show in the city centre on Saturday and we expect lots of visitors.

Woman: A moto show? What's that?

Man: Fans of old cars are meeting in our city. They're presenting their cars so you can admire them and take some photos. They're organizing a parade, too. It's going to pass the hotel, actually.

Woman: It sounds really cool! What time does the parade start?

Man: It begins at 12 o'clock and they'll pass the hotel half an hour later.

Woman: Oh, I hope we won't miss it then. OK, so I'd like to book those rooms...

Tekst 2.

Man: Attention everybody. This is your principal speaking. I'm very happy to invite you to attend our Sports Day on Monday, 15th of May at 10 a.m. It's organised for the fifth time and this year the event will begin with the running competition. Students from three other schools will take part in it, too, as you know. This year we'll also have a special guest. At 12 o'clock a well-known sports commentator will be commentating the match of our school football team. You can't miss it! If you want to support our students, I encourage you to wear a T-shirt (or trousers) in our school colour, which is red. But do not paint your face and don't prepare any posters, please. Finally, just to remind you – all classes next Monday are cancelled. We're meeting on the sports field at 10 a.m. Don't be late!

2.1.

Woman: Recycling is very important in my family. We have special rubbish bins where we put plastic containers, glass bottles and paper. I guess that plastic is the most harmful material of all. That's why I carry my own shopping bag. It's made of linen and I can use it many times. Because of that I don't need plastic bags to carry my groceries. It's not only better for the environment, but also cheaper, since I don't pay for plastic bags every time I go shopping.

2.2.

Man: I try to protect the environment in a very simple way. I love drinking coffee and I buy it in cafes quite often because I have no time to prepare it for myself before work. But I always carry my own cup. It's a thermal cup so the coffee stays hot in it for a long time. My friends used to laugh at me because of that but now they think it's cool. Some of them started bringing their own cups, as well!

2.3.

Woman: Once I was cleaning my bathroom and I saw how many plastic containers I throw away. That's why I swapped all bathroom bottles for soap bars. That way it's not only eco-friendly but also healthy because the soap I buy is made of natural ingredients. Also, we don't take long baths anymore – we have just had a renovation and I got rid of the bathtub. Instead, everybody in my family just takes a short refreshing shower.

2.4.

Man: I love vegetables and I used to buy a lot of them. However, when you buy vegetables in supermarkets they're usually in plastic containers. So I decided to grow my own vegetables. Now I have a little garden with tomatoes, onions, peppers and many more. And if I have too many tomatoes for example, I prepare vegetarian dishes which I later put in jars or freeze. In that way I can eat my own veggies all year round.
